Project idea

- We are trying to make bookshare platform.
- Some user(s) might not want to own a book .
- want to sell old book.
- want to buy new books cheap.

- user can both rent and buy a book from other user
- Admin can access book in the stock and user information

Edit Stock

Limitations

- late of main point idea -> not good UX/UI
- Time limitation -> Not collect in all details
- Working remotely -> Not fluent work
